

# ELECTRIC PUMP

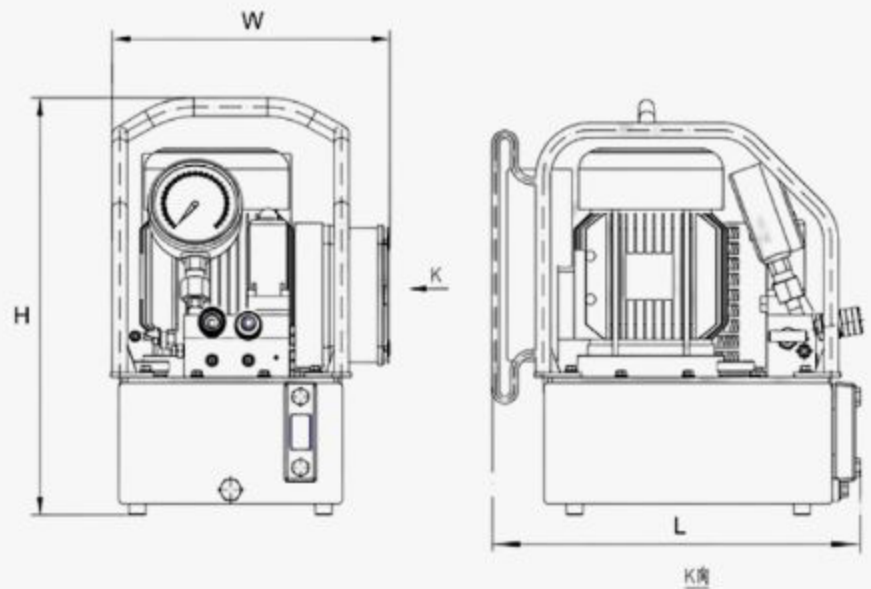

## Features:

- Compact automatic three-stage design.
- Applicable on one or two wrenches simultaneously.
- Aluminum oil tank with gauge.
- Have 100 high-pressure gauges.
- Infinitely variable pressure adjustment between 70~700 bar.
- With the high-efficiency radiator the pump can work 24 hours continuously.
- Can change the motor to fit the different voltage.
- Optional components, can operate four wrenches at the same time

## Additional Features:

- Remote control wire
- Aluminium frame
- Pressure adjuster and pressure relief valve inside the tank
- Light weight

## ELECTRIC PUMP PARAMETERS

Model	TPH-3TW-2	TPH-3TW-4
Operating Wrench	2	4
Tank Capacity	8L	8L
Flow (Low-Medium-High)	7-1.6-0.8L/min	7-1.6-0.8L/min
Output Pressure	70~700 bar	70~700 bar
Source of Power	220V/50HZ	220V/50HZ
Power	1.1KW	1.1KW
Weight	27.7Kg	29.9Kg
Volume	307X407X450mm	307X407X470mm
