

Pneumatic torque wrench

Model	Min torque(N.m)	Max torque(N.m)	S	D	L	H1	H2	R1	R2	Weight (Kg)	Max speed rpm
					mm						
TPT-80	100	500	3/4"	60	170	190	185	56	99	4	50
TPT-120	150	1000	3/4"	74	250	190	185	62	112	4.8	28
TPT-150	200	1500	1"	76	260	190	185	70	130	5.2	21
TPT-200	300	2000	1"	76	260	190	185	70	130	5.5	15
TPT-300	500	3000	1"	93	340	190	185	80	150	7.5	10
TPT-400	700	4000	1-1/2"	97	340	190	185	80	150	9.5	7
TPT-600	1000	6000	1-1/2"	105	380	190	185	93	158	14	5
TPT-800	2000	8000	1-1/2"	113	380	190	185	93	158	18	4
TPT-1000	2000	10000	1-1/2"	120	390	190	185	93	158	20	2.5

1. Heavy industry durable, lighter and faster Japan air motor is better than existing hardware air motors
2. Torque adjustable nut runner, reliable and dependable solution for the tighten and loosen of heavy-duty nuts.
3. Non-impact force makes work easier, Smooth continuous flow of controlled torque eliminating destructive hammering
4. Light weight ergonomic pistol grip design reducing operator strain and injury; resulting in increased productivity.
5. Stall type makes lower noise and high accurate torque. Torque accuracy +/-4%, repeatability less than +2%
6. Digital readings and adjustable torque for every 10Nm (optional)
7. Close-loop system: Optional Transducerized system. Built in transducer increase accuracy to +/-1%
8. Advanced industry's most ergonomic tool holder, light weigh reaction arms
